TO BE WON FOR  
EACH WINNING  
ENTRY, PER  
YEARGROUP!!!**

# Winter Advent Calendar Competition 2022

Please have entries handed to your class teachers by 25th Nov, Thanks.

Hi Everyone,

It's that time of year again folks! Yes it's time to create your arty entries in for this years Winter Advent Calendar competition! This years theme will be based around our environment, both natural and man-made. I have put together a few ideas for you all to get your creative brains flowing, but feel free to come up with your own ideas.

Remember, this is a project for the whole family to share, so get your parents, carers and siblings involved in helping with your wonderful creations!

*Some crafty activities, you can try at home...*

Ask an adult cut out shapes to make a tree, then paint and decorate it.

Make a snowy, crowie scene!

Make a stained glass decoration using black card and tissue paper

Make aromatherapy decorations by slicing some citrus fruit, drying them out and add spices like star anise and cinnamon.

Make a paper cone and decorate it to make a tree decoration.

*... or what about having a go at creating these winter landscapes...*

Paint a snowy scene using paint, with sponge prints for snow in white and twig prints for paint in black.

Create a magical forest blending a chalk pastel background.

Use cut cardboard to create the wintery scene.

Create this simple landscape using a hand-writing pen and paint/coloured pencil.

Look at London landmarks on your devices to create a drawing of London in December

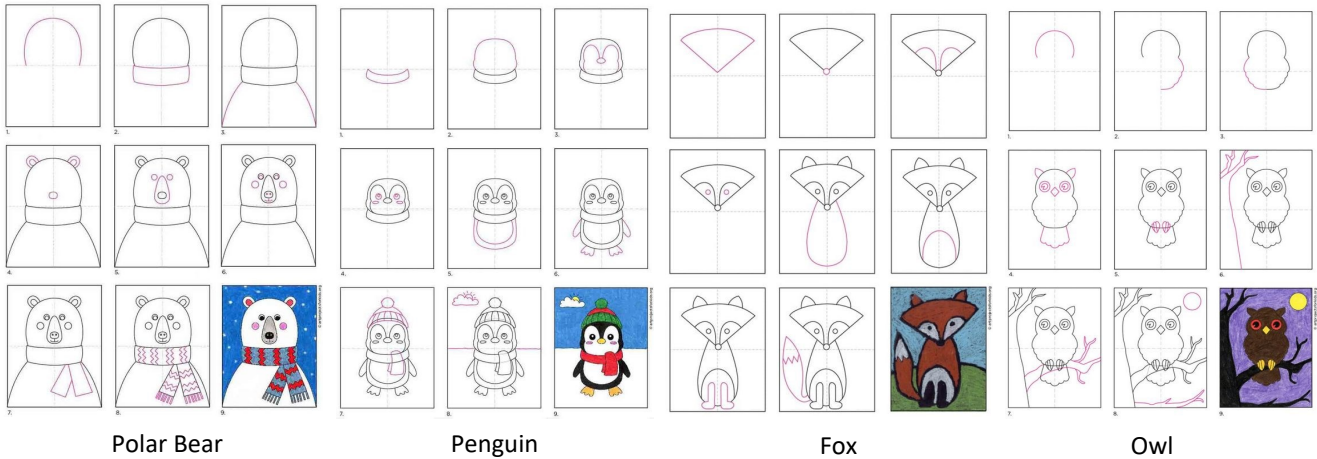

Draw a fun house window with a festive theme.

Create a piece of abstract art, inspired by polar animals.

Let's look at how to draw animals with the step-by-step guides below...

Go to on your devices <https://artprojectsforkids.org/> for more information...

Polar Bear

Penguin

Fox

Owl

...and then you can give them a wintery landscape...

Try making this Snowy Owl collage, using ripped kitchen towel, cupcake eyes and bits of doily for snow.

Check this "melted" snowman art, with cut out card, hat, nose and eyes!

How about these silly, snow eating self-portraits using coloured pencil or felt-tips! Yum!

A wet wintery London

Draw a Birch Tree forest

Create a silhouette using collage techniques
