## Early History of Britain

### The Stone Age

Britain has a long, rich history which dates back thousands of years. Around 5000BC, people were settling in Britain. They were hunters and gatherers and used simple stone tools. They lived during the time we call, the Stone Age.

Please bring in any activities you complete from this booklet so we can share your creativity.

# GO ON A FAMILY TRIP TO DISCOVER LONDON

## Keep a food diary

Record what you eat for one week. Do you eat the following: protein, fruit, vegetables, dairy and carbohydrates? Can you research what these words mean?

## Thames Explorer Trust

Go Mudlarking with the Thames Explorer Trust and see what you can find along the river when the tide is out. Will you find any fossils? Or perhaps a Stone Age artefact? Bring it in and tell the class about the experience.

## Local area walk

Spend some time walking with your family in the local area. Can you identify which stones have been used to build the buildings?

Remember to bring something in to tell your class about your trip. It could be a photo, drawing, poem, booklet, ticket,— anything!

Visit one of these great websites over the term!
