Tapestry Online Learning Journal

What is Tapestry?

- Tapestry is an online learning journal system
- There is an app and browser version available
- We can use it to record children's learning and development using tablet devices and PCs
- We can set you up as parents with your own secure logins so you can view, comment on and add your own observations to their child's journal
- When your child leaves, we can export a PDF copy of your child's journal and a ZIP file including photos and videos for you

Why have we chosen Tapestry for our Leaning Journal system at CJ?

- Tapestry is easy to use.
- Photo and video observations can be shared.
- It allows teachers to share children's learning in real time.
- It allows parents to comment on school learning and share learning that happens at home.

How is the data kept safe?

- A password is required to access Tapestry, remember the stronger the password you set, the more secure your account is
- You are linked manually to your child/children so you can only view observations for them
- We don't need to store any of the data entered onto Tapestry, they store it for us on secure cloud servers within the EU

- Data is stored separately for each school
- Tapestry's developers and support personnel require our permission to access our Tapestry account
- For more information about Tapestry security you can go on their website https://tapestry.info/security.html

Logging in

- To login to Tapestry we will need to have an email address for you
- Once you activate your account you can then login using your email and password
- You can reset your password by email if you forget it
- Passwords are case sensitive
- Remember to set a strong password
- You can read this article for some guidance on how to set a strong and memorable password https://eyfs.info/forums/topic/47249-password-setting-advice/

All about me and observations

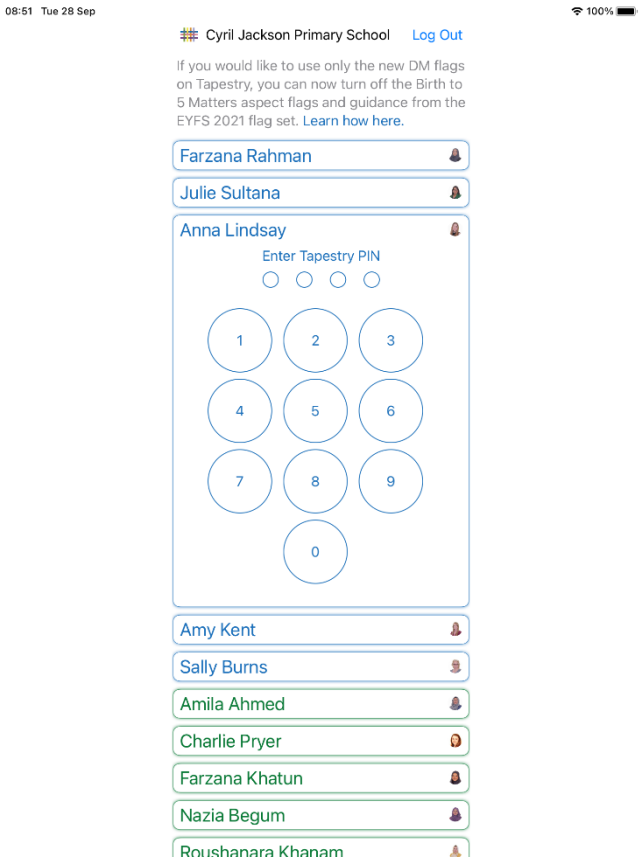

All about me form

Add an observation

https://www.cyriljackson.towerhamlets.sch.uk/nursery

Adding observations

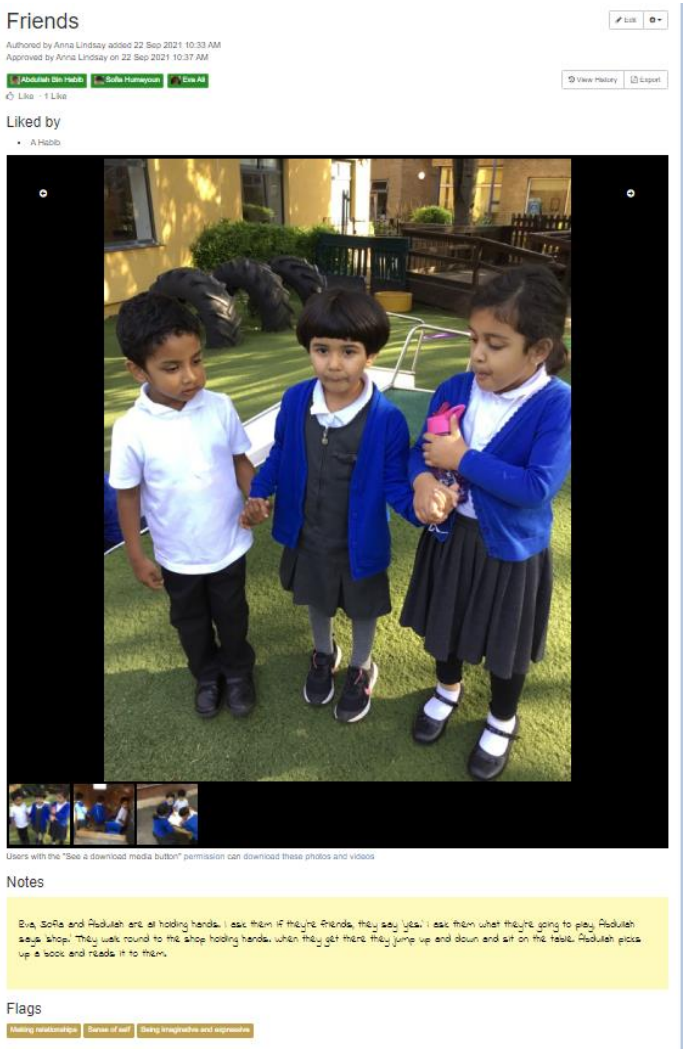

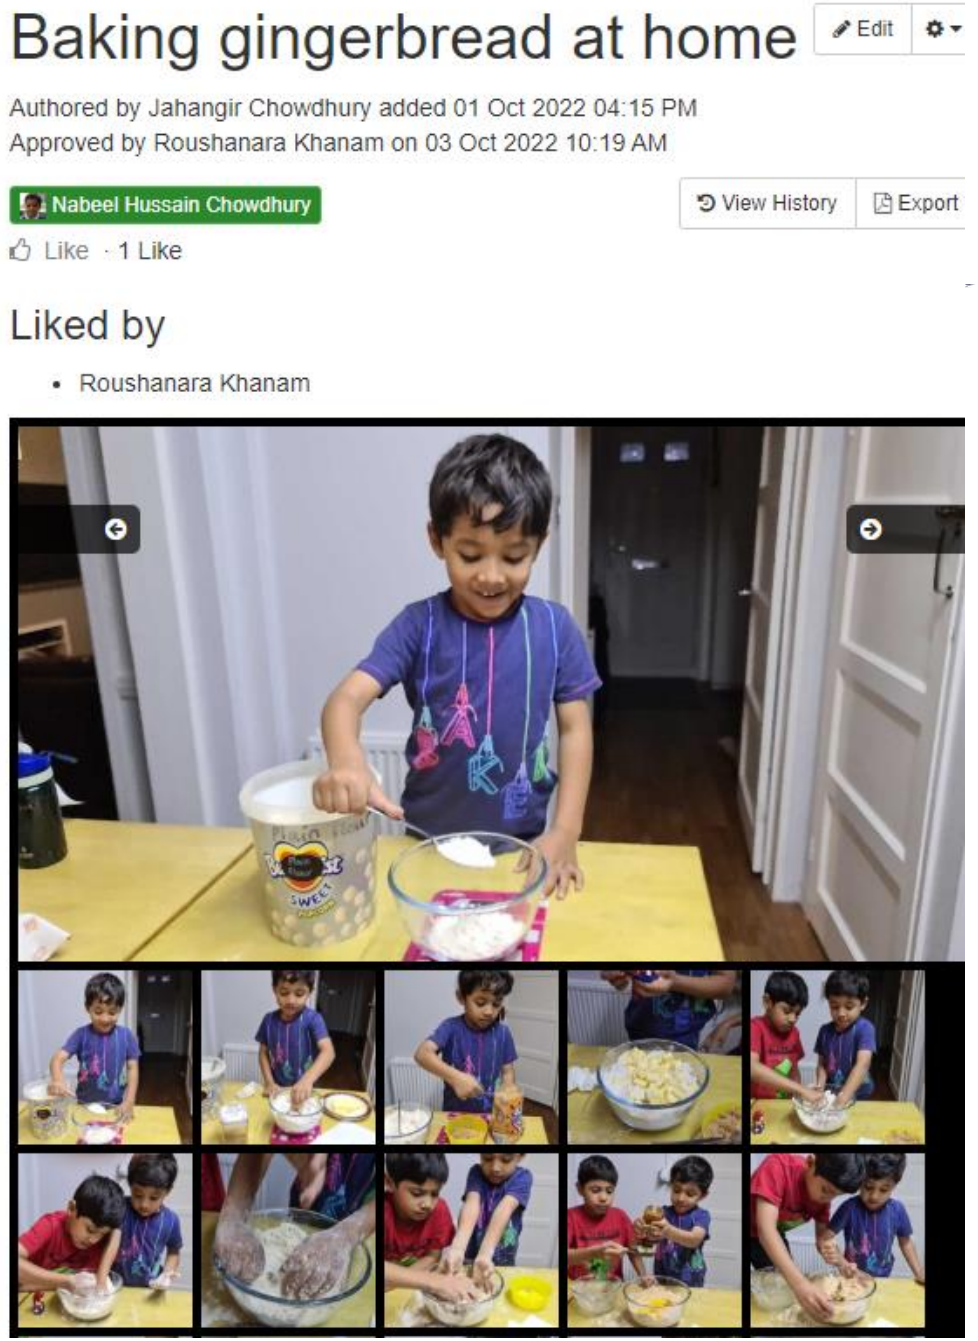

Observations

- When you login to your account you will be able to see any observations for your child that have been added to their journal
- You will be able to see any photos/videos
- Underneath the media you will see the notes, so the actual observation
- You will also be able to add comments and like the observation
- You can also add your own observations

What should I upload?

The things you make and do at home – crafts, cooking, Lego – especially things which amaze or surprise you!

What should I upload?

Interesting chats or experiences you share

Notes

Today the children picked the courgettes.
T: 'It's green and there's some yellow, the shape is circle.'
T: HTYT 'sphere' I explained the 'courgette is a solid shape, 3D and circle is a flat shape 2D.

'Im smelling lavender T: smells like leaves.'

'There's so many seeds inside the courgette! T: Lots of them'

T: I wonder if you can go to the shop with your parents and buy some courgettes. Then have a go at cooking it.
T: 'Don't forget to describe the shape and the taste of your courgette.

Notes

'During our shopping trip Tucker found courgettes and wanted to buy them to cook like his teacher said.
We decided to look on the internet to find a recipe.
We chose to make a courgette pie which he helped his dad make by mixing grating and cutting the ingredients.
He loved making it and can not wait to show his teachers on Monday.

Thank you Chef Tucker!

Notes

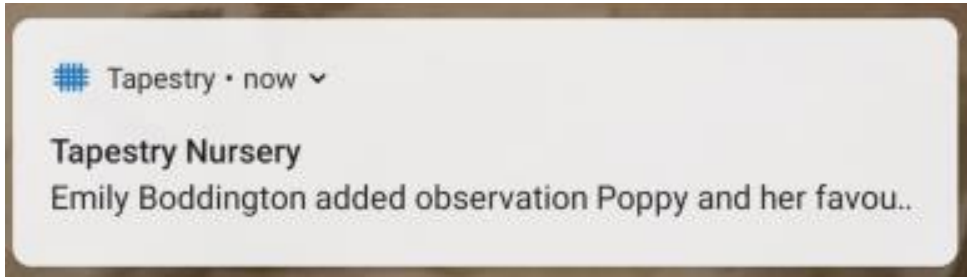

The courgette pie was delicious, we all enjoyed it! All the adults can't wait to make it.

T: I wonder if you can write/draw all the ingredients we need to make the pie.

Notifications

- If you would like to receive notifications it's possible to receive email notifications immediately, daily or weekly
- There are different notifications for things like new observations and observation comments
- On the app (only on the new version) you can also receive push notifications

Thank you for your continued help and support this half term!

Any questions?
