Phonics Programme

The following slides are designed to get children used to seeing 'monster words' prior to the Phonics Screening Check, along with a chance to practice areas of challenge for our readers:

- Words with adjacent consonants (both short and long vowels)
- Plurals
- Multisyllabic words

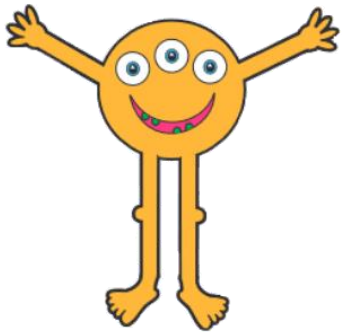

'Monster words'

Children need to be told that these words are not real words. They simply need to 'say the sounds and blend the sounds' accurately to read the word. Some children might find it helpful to have them referred to as the name of the monster. If distracting, remove the monster.

The aim is for a slide a day for the whole class, therefore, ensure children are not calling out immediately but all are given a moment to work out each word. (3 minute practice).
